SAILING QUALIFICATIONS REQUIRED

An international sailing certificate by at least one member of the crew, in English. A second member of the crew is recommended to have adequate sailing experience. RYA, ASA, Nautic Ed certifications are officially recognized but it is important that the charterers do not own a license with restrictions or limitations such as 'Daylight hours', 'Day skipper', 'Inland waters', etc. Further sailing courses might be required in order to obtain an adequate sailing license, but most times, an application to the sailing association that issued the certificate, is what it takes to issue a document which certifies the needed qualifications.

The sailing licenses are inspected and approved by the port authorities, according to the Greek regulations. Charterers should ensure to have the appropriate certifications before they arrive as they are the only responsible in case of any rejection of their certification -and therefore the approval to leave the port- by the authorities.
